

MAIN FEES AND COMMISSIONS

APPLICABLE AS OF 3RD MAY 2025

BNP PARIBAS
WEALTH MANAGEMENT

The bank
for a changing
world

Preamble

Main Fees and Commissions, Applicable as of 3rd May 2025

This document provides an overview of the fees for the main products and services offered by BNP Paribas Wealth Management in Switzerland ("the Bank").

In addition to these main fees and commissions, which are paid directly to the Bank, the Bank may also directly or indirectly receive or obtain payments such as fees, commissions, and rebates, as well as compensation, from third parties (including members of the BNP Paribas group). Such compensation is detailed in the "Information notice regarding compensation from third parties", available on the Bank's public website (<https://wealthmanagement.bnpparibas/ch/en/your-goals/protect-and-grow-your-wealth/design-your-portfolio/fees-and-commission.html>). For more information, please contact your Relationship Manager.

Remarks:

- BNP Paribas Wealth Management reserves the right to charge for any transaction that generates a specific cost at the actual cost.
- All prices exclude taxes and are expressed in Swiss francs (CHF) or equivalent. They are exclusive of VAT, which shall be charged at the applicable statutory rate. Swiss and foreign taxes are not included in our rates. For example, Swiss stamp duty may be collected on transactions executed by a Swiss financial services provider. For foreign financial instruments, other local transaction taxes may apply.
- Banking transactions are carried out within a given number of valuation days, expressed as a number of business days in Switzerland from the date of execution.
- Unless otherwise agreed, BNP Paribas Wealth Management reserves the right to change its fee schedule at any time. Clients of BNP Paribas Wealth Management will receive advance notice of such changes, and this document will be revised accordingly and made available on the Bank's public website (<https://wealthmanagement.bnpparibas/en.html>).
- This document is intended for use by all BNP Paribas Wealth Management clients.
- For a full description of the products and services offered by BNP Paribas Wealth Management in Switzerland, please refer to the specific brochures, contracts and agreements, which are available upon request.
- Fee schedules for products and services not listed in this document, including those that are no longer offered but may still be held by a client, are available upon request.

⁴ For debit/credit cards.

⁵ Service offered in certain countries, under specific conditions and for a tax reclaim above EUR 250.

Administration Fees

Administration fees are calculated based on the total value of the portfolio (including cash) according to the following sliding scale:

Assets (in CHF)	Annual fees
< 2.5 million	0.30%
< 5 million	0.28%
< 10 million	0.26%
< 25 million	0.24%
Above 25 million	0.22%
Minimum fee	CHF 2,000

- Fees are charged quarterly based on average assets at the end of each month, one month ahead of the calendar quarter (first quarter calculated on the basis of assets at the end of December, January and February).
- Fees are calculated based on total portfolio assets (including cash).
- If negative interest rates come into force, the Bank may charge a quarterly deposit fee calculated on the basis of your cash balance. Please contact your Relationship Manager for the applicable terms and conditions.
- Surcharge for precious metals and alternative funds: 50%.
- There is a surcharge for sub-custodians' fees of 0.10% for foreign equities and bonds held through omnibus client segregation and 0.50% for foreign equities and bonds held through individual client segregation.

Transaction Fees

- For every purchase or sale of a derivative or security (including but not limited to equities, bonds, ETFs and mutual funds), the Bank charges a brokerage fee. The term “security purchase” refers not only to a direct purchase, but also to any acquisition resulting from the conversion, assignment or exercise of a derivative or structured product.
- Stamp duty, taxes and fees charged by external brokers or exchanges are charged separately. For further information, please refer to the legal documentation of the relevant product or ask your Relationship Manager.
- The exercise and assignment of derivatives (including options) are subject to a brokerage fee on the corresponding underlying value. Brokerage fees are also applied to the underlying value when structured products are redeemed in the form of securities. However, no such fees apply to cash redemptions.
- The subscription to equity and bond issues (i.e. equity IPOs and new bond issues) is subject to a brokerage fee.
- Structured product issuance is typically subject to a subscription fee referred to as the “issue price”. The fees for issuing structured products vary, as they are often tailored to meet the needs of a limited number of clients and are executed over the counter (OTC), i.e. outside of regulated markets.
- A fiduciary deposit fee is charged when clients purchase a fiduciary deposit investment.

> 5%	0.80%
Minimum fee	CHF 250

*including Murabaha fiduciary deposits

5. Derivatives Fees

- A brokerage fee applies to the execution of listed derivatives (exchange-traded futures and options). The fee usually depends on the number of contracts being traded, subject to a minimum fee amount. For further information, please refer to the legal documentation of the relevant financial product.

- Futures

- Minimum CHF 200, plus external brokerage fees.

- Listed Options

Brokerage fee equals 1.50% of the premium, subject to the following minimum and maximum:

Minimum CHF 200

Maximum 10% of the premium

- Vanilla OTC Equity Options

Markup equals up to 1.50% of the notional, subject to the following minimum and maximum:

Minimum CHF 200

Maximum 10% of the premium

- Complex OTC Derivatives (Equity Accumulators / Decumulators)

Markup equals up to 1.50% of the non-boosted notional:

Minimum CHF 2,000 (CHF/EUR/USD) for each (market) trade

6. Foreign Exchange and Precious Metal OTC Transaction Fee

Foreign exchange and precious metal OTC transactions ("FX transactions") may result in a markup ("rate") being applied by the Bank to the execution price received from the OTC FX counterparty. Such a markup is calculated on the corresponding notional amount (for spots, forwards and swaps) or on the premium (for options). The absolute minimum on a particular transaction may surpass the indicated maximum rate.

Amount in CHF (non-cumulative)	Spots, forwards & swaps	Vanilla options		Complex derivatives
	Maximum rate (% notional)	Maximum rate (% premium)	Minimum fee (USD)	Maximum rate (% notional)
< 25,000	1.50%	-	-	-
< 100,000	1.30%	35%	250	
< 250,000	0.90%			
< 500,000	0.50%	35%	400	Up to 1.5% of the notional, min. USD 5,000
< 1 million	0.30%	30%	750	
< 2.5 million	0.20%	25%	1,500	
< 5 million	0.15%			
> 5 million	0.10%	20%	2,000	

Example 1

A client would like to sell spot CHF 1,000,000 against EUR. The spot rate from the FX counterparty is 1.1100 and the spot markup charged is up to 0.20% according to the table (in the 1 to 2.5 million range). The maximum client exchange rate is calculated as the FX counterparty rate of 1.1100 plus the spot markup of 0.0022 (0.20% of 1.1100), i.e. 1.1122.

The client would sell CHF 1,000,000 in exchange for EUR 899,118.

Example 2

A client requests a quote to sell a vanilla put for a notional of USD 500,000. The gross option premium quoted by the FX counterparty is 2.00% of the USD notional (= USD 10,000). The maximum bank markup will be 35% of the gross premium (= USD 3,500), with a minimum of USD 400 according to the table (notional < CHF 500,000).

The net premium received by the client will be between USD 6,500 (= 10,000 – 3,500) and USD 9,600 (= 10,000 – 400).

- For a derivatives strategy including several options (multi-leg options strategies), the markup is applied to the notional of the option (leg) with the highest notional amount (i.e. notionals for all legs are not aggregated).
- For digital options (also known as binary options), the markup amounts to a maximum of 3% of the conditional pay-out, subject to a minimum of USD 1,000.

Physical precious metal transactions	Metals	Weight / Notional (CHF equivalent)	Fee
Ingots	Gold	1 kg	1% (of transaction value), min. CHF 500 (price per ingot)
		Below 1 kg	1% (of transaction value), min. CHF 250 (price per ingot)
Standard Bars	Gold	+/- 12.5 kg (400 ounces)	Price per kilo: 0.80% (of transaction value), min. CHF 400
Ingots	Other metals	-	Depends on the specifics of the transactions. Please ask your BNPP representative for more information.
Coins*	All precious metals	Below 250,000	0.50% (of transaction value), min CHF 200 per transaction
		Between 250,000 and 1 million	0.25% (of transaction value), min CHF 200 per transaction
		Above 1 million	0.10% (of transaction value), min CHF 200 per transaction

* This coin pricing applies to bullion (KRU, MAP, EAG, SOV, PAN and other equivalents). Smaller denominations are typically subject to a minimum fee of CHF 100.

Requests to convert scriptural gold into physical gold bars or ingots are subject to a fee of CHF 100 per kilogram. Prices for similar conversions of other precious metals is available upon request.

Stamp Duty, External Fees & Product Costs

In addition to fees and commissions applied by the Bank, additional costs may be levied or charged by third parties. An overview of these costs is provided below.

Swiss Stamp Duty

The following table contains fee ranges for Swiss stamp duty on security trades. Federal stamp duty is a tax levied on secondary-market transactions, meaning that it is charged when securities change hands through a Swiss bank or Swiss securities dealer. Swiss stamp duty may be affected by various factors, including transaction value, asset class and tax residency.

Equity	Stamp Duty

² Stamp duty may apply to structured products classed as funds like

³ Stamp duty may apply to structured products classed as bonds or funds like

⁴ Stamp duty applies at physical delivery of taxable assets

External Fees & Product Costs

External Fees

A broker fee applies when the Bank uses a broker to channel orders for listed securities to trading venues.

For listed securities, broker fees depend on the broker used, the venue accessed and how the broker processes the order.

On the largest and most liquid European regulated markets, broker fees can be as low as 0.015% of the order size; on major US regulated markets, minimum broker fees are 0.02% of the stock price (for US securities costing under USD 25 per share) or USD 0.005 per share (for those worth over USD 25).

Minimum broker fees for orders on listed derivatives are USD / EUR 0.125 per lot, but most often hover at around USD / EUR 0.5 per lot. A range of factors may affect the broker fee level, including the type of derivatives involved.

Minimum broker fees per order may apply as well. For further details about broker fees, please consult your Relationship Manager.

Product Costs

In relation to the provision of financial services, costs and fees may be incurred by both the Bank and third parties.

The following table shows estimated typical ranges of ongoing costs charged to funds by third parties.

Funds' ongoing product costs usually include ongoing charges (e.g. management fees, custody fees, legal fees and marketing fees) and transaction costs within the fund. These costs are deducted from the returns of the financial instrument, rather than being charged to your account directly.

For further information, please refer to the legal documentation of the relevant financial product.

		in % p.a.
Regulated Funds¹	Ongoing charges	up to 2.80
	Portfolio transaction costs	up to 2.00
Alternative and Other Funds²	Ongoing charges	up to 4.50
	Portfolio transaction costs	up to 3.00
	Other costs	up to 3.00
Exchange Traded Funds	Ongoing charges	up to 1.00
	Portfolio transaction costs	up to 0.80

¹ The term "regulated fund" refers to funds that are regulated within the European or Swiss framework. Funds charging a performance fee are not included.

² This term refers to funds pursuing alternative strategies, funds not covered by Swiss or European regulations, and funds charging performance fees.

Advisory Agreements

The minimum asset threshold for advisory agreements is EUR/USD/CHF 1 million.

Assets (in CHF)	MyAdvisory - Essential	MyAdvisory - Partner
	Annual fees	Annual fees

< 25 million	0.15%	0.35%
> 25 million	0.10%	0.30%
Minimum fee	CHF 1,000	CHF 5,000

- Fees are charged quarterly based on average assets at the end of each month, one month ahead of the calendar quarter (first quarter calculated on the basis of assets at the end of December, January and February).
- Fees are calculated based on total portfolio assets (including cash).
- Administration fees are billed separately and not deducted.
- Essential : 10% off transaction fees on securities and investment funds.
- Partner : 20% off transaction fees on securities and investment funds.

In certain circumstances, the Bank and the client may agree on a bespoke, all-inclusive price covering administration, management and brokerage fees. Please contact your Relationship Manager for further information.
